

Product Designer with 4+ years of experience in digital products and a prior 4 years background in Interiorism. I design diving deep into user behaviour and business context to craft meaningful, scalable solutions. My work blends strategy, research and design to build digital products that not only stand out but genuinely improve people's lives with technology.

Experience

2023 – Present

Movistar Prosegur Alarms

Senior Product Designer

- Lead end to end product discovery, from product strategy to user research, testing and Go live the App to market.
- Translate insights and performance data into product improvements and growth opportunities.
- Orchestrating and leading design team and being partner with POs and engineers to define roadmaps, user journeys, delivery and success metrics.

Jan – Dec 2023

Selectra

MID Product Designer

- Delivered full cycle design for energy and telco platforms, from discovery to validation. Designed MVPs based on data analysis, user feedback, and business KPIs.
- Collaborated cross functionally with PMs, developers, and stakeholders to ensure design quality and scalability.
- Measured product performance post launch to guide iteration.

Apr 2022 – Jan 2023

North Studio

Product Designer

- Designed next generation SEAT and CUPRA infotainment systems, shipped in vehicles worldwide.
- Developed scalable design foundations and guidelines for multi device ecosystems. Mentored junior designers and collaborated with engineering for feature delivery.

Feb – May 2022

Hogarth Worldwide

UX/UI Designer

- Partnered with product and marketing teams to optimize user flows and conversions.
- Delivered cross market design solutions aligned with brand and technical constraints.

2019 – 2022

Proyecto Singular

MID Interior Architect

- Led design projects in hospitality. Collaborated with multidisciplinary teams from concept to execution, refining problem solving and project management skills.
